# Aqualine

**The robust answer to your food handling requirements.**

Hard wearing

Hard working

Hard to beat for value and quality

**2 YEAR  
PARTS REPLACEMENT  
WARRANTY**

**The Crown Conveyors Aqualine range is the perfect fit for the rigorous demands of the modern food industry.**

Quality engineered from stainless steel and polyethylene to withstand aggressive cleaning regimes, it is tailor made for high risk food applications.

This mid-weight range of free standing, waterproof conveyors also provides total flexibility.

You specify the length, belt width, height and speed, give us the product details and rates and we'll deliver a custom conveyor assembled for your operation.

The range's flexibility also extends to our customers products and handling styles.

The conveyors are equally at home with filling, topping, depositing, ready-meal assembly, sorting, counting and rotating, as well, of course, as transporting product within your facility.

Additional options which include a euro socket for ancillary equipment also makes this conveyor ideal for coding and labelling applications and we can offer variable speed and indexing options to suit your particular production requirements.

*Don't underestimate the sheer quality of the Aqualine range.*

*Built to last and deliver many years of fault free service. It also has a quality energy efficient motor operating well within it's capacity.*

*All this at a highly affordable price from a proven manufacturer with a twenty year track record.*
