# SEQUENCING CONVEYOR

A sequencing conveyor to accept and queue, prior to marshalling through the depositor position and exiting. The first section is a FDA approved plastic modular belt with the second section being three off FDA Approved round belt cords, equally mounted across the base diameter of the product for stability.

## Key points

- FDA approved plastic blue drive and nose rollers
- SEW motor/gearboxes
- Fitted with three off pneumatically operated pin stops
- All frame work fabricated from stainless steel and fully welded
- Produced for a wash down environment

## ✓ HARD WEARING

Solid reliable design and build provide essential low maintenance.

## ✓ HARD WORKING

Built for high volume daily usage to keep your production line moving.

## ✓ HARD TO BEAT

For value and build quality, the Sequencing Conveying range is hard to beat.
